## Died Suddenly

**WARNING:** This issue contains information about the possible severe health risks of COVID-19 vaccines. If you have received one or more of these, reading this issue could be extremely disturbing. If you continue to read, you'll take the Red Pill, and to quote from [Issue #1](#), you'll "wake up from your normal life of sloth and ignorance, even though you'd feel safer or happier if you didn't. It will enlighten you and expose your disillusion, allowing you to see the world as it truly is, no matter how painful or gritty or difficult to accept it may be." I am not trying to scare you, only to inform and warn you.

I recently watched the documentary "[Died Suddenly](#)," which you can watch for free (watch the 4:20 trailer [here](#)). It is extremely disturbing. They interview a handful of morticians and embalmers who suddenly started finding weird abnormalities in the bodies of otherwise healthy people, which they had never seen before. These included long, fibrous strands inside the blood vessels, gritty specks in blood, blood clots, and blood that had become separated. The footage of them pulling out the long strands was like a scene from an alien horror movie.

They interviewed Steve Kirsch ([bio](#), [website](#)), a smart and wealthy tech entrepreneur. Until recently, he had been a cheerleader for vaccines (including the COVID vaccine, which he had his entire family get) and a fan of Dr. Fauci. Then realized that he had been lied to. Now Google ranks him as the world's #1 "COVID misinformation superspreader." "[Don't be evil](#)," right? I'll let you judge who's the evil one here.

They interviewed several high-ranking military officers (two in the medical field) whose careers were ended when they became whistleblowers. They seem very knowledgeable and credible. One has concluded that the COVID vaccine is a biological weapon, and another described the situation as a crime.

They interviewed a 43-year OBGYN doctor who says that he's "seeing death and destruction like I've never seen before." They show a chart of the number of fetal deaths in 2021 (when the federal government and corporations imposed vaccine mandates) that shows a standard deviation of 40+ sigma, the probability of which is 0%.

I also read the book [Cause Unknown: The Epidemic of Sudden Deaths in 2021 & 2022](#), which is 5 stars and a MUST READ. It was written by Ed Dowd, a super-smart Wall Street analyst who managed a \$14 billion fund for 10 years. (You can watch an interview with him [here](#).) The Foreword is by Robert F. Kennedy Jr. (who is considering running for president as a Democrat), who quotes Dowd: "From February 2021 to March 2022, Millennials experienced the equivalent of a Vietnam War, with more than 60,000 excess deaths. The Vietnam War took 12 years to kill the same number of healthy young people we've just seen die in 12 months."

Remember all of the protests against that war? Remember the detailed charts in the media of deaths attributed (supposedly) to COVID? Curiously, it seems there has been not

a peep about this from the legacy media. Dowd notes that “A 40% increase in deaths is literally earth-shaking....Even a 10% increase in excess deaths would have been a 1-in-200 year event.”

The first section of the book is about the epidemic of sudden deaths among young, healthy athletes. A 2006 Swiss study of sudden cardiac death in athletes under 35 (the most cited such study) from 1966 through 2004 found 1,101 such cases, or about 29 *per year*. Dowd notes that “since June 2021, there hasn't been even one *month* with fewer than 29 such deaths; there were 90 reported in December 2021 alone, and about the same the month after that.”

On September 1, 2021, the CDC quietly changed the definition of “vaccine” from inoculants that “produce immunity to a specific disease” to “a preparation that is used to stimulate the body's immune response against diseases.” But the legacy media didn't mention this.

Dowd writes, “The CDC, NIH and even President Biden himself [who contracted COVID twice after being vaxxed and fully boosted] told everyone that if you take the vaccine, you are protected from COVID and cannot spread COVID....Literally months after it was obvious to everyone, the corporate mainstream media began to quietly report that the COVID vaccines don't stop transmission....a fact *known to Federal public health officials before mass vaccination even began.*” (emphasis added)

One chart in the book shows that “there have been more adverse reactions and deaths reported to VAERS for the COVID vaccines *than all other vaccines combined, over 32 years.*”

“This would not be the first time if it happened that a vaccine that looked good in initial safety actually made people worse...the respiratory syncytial virus vaccine in children which paradoxically made the children worse. [80% of the children given the shot were hospitalized with severe respiratory disease.] One of the HIV vaccines that we tested several years ago actually made individuals more likely to get infected. So you can't just go out there and give it.” ~ Dr. Anthony Fauci on vaccines, March 2022

The increase in excess mortality in the second half of 2021 to new all-time highs (84% above baseline) was the greatest among Millennials (ages 25-44). A table in the book from the Society of Actuaries Research Institute (which unlike the federal government, has a strong financial incentive to understand what is actually going on) clearly shows that during Q3 2021, “the same period that vaccine mandates were ordered by the Biden administration, and enforced by corporate America,” the excess mortality of all ages from 0 to 84 suddenly exploded higher, especially those from 25 through 64, which were between 53% and 100% above baseline.

Another disturbing chart shows that “the overwhelming number of COVID deaths—and all the highest peaks in deaths—occurred after commencement of mass vaccination.” Yet another chart clearly shows that “mortality continues to rise throughout the year for all age groups during the least virulent variant (Omicron), during what should have been the end of the COVID pandemic.”

The book includes links to stories such as these:

The book's section on Europe notes that “After mass vaccination, death rates of working-age people increased in every one of these countries....Europe and America currently have *a second pandemic far worse than the first*, because its numbers are worse, and also because *its victims are healthy young people* who would not otherwise have died....Also, vaccination rates are now much higher than in 2021, so if 'safe and effective' is true, death rates should be plummeting, not increasing. But they continue to rise.” (emphasis added)

“The CDC director last year said if we vaccinate a million children, there might be 30 or 40 cases of mild myocarditis. And they said, if you get myocarditis from COVID, that's worse or happens at a higher rate. But that's not true. The studies have come out. Europe reacted by banning the Moderna vaccine altogether in young people, in many parts of Europe and everybody under 30. We're now learning that there's significant heart damage, 31% of people having physical activity restrictions. 63% of children after myocarditis had evidence of heart swelling months down the road on MRI. So we were playing with fire.” ~ Dr. Marty Makary, Johns Hopkins University

The book's extensive Afterword is written by Gavin de Becker (who wrote [\*\*The Gift of Fear: Survival Signals That Protect Us From Violence\*\*](#)), and it's just devastating. He writes, “What Ed Dowd has done in this book encourages us to bring our own curiosity and skepticism to the present unprecedented moment, in which new and little-tested Pharma products are being injected into the majority of people on Earth, billions of doses thus far, another 4 million each day, evermore including children, even infants, authorized by an FDA that tried hard to keep Pfizer's clinical trials data secret from the public....the FDA...asked for 55 years to [make the data public]....the FDA (joined by its partner, Pfizer) later petitioned the Court to allow them 75 years to disclose all the information.”

de Becker concludes, “Of course, Pfizer and Moderna didn't need any sales pitch for these vaccines—since the products were developed, ordered, purchased, promoted, defended, indemnified and even mandated by our own government.”

Dowd deliberately avoids a sensationalist or alarmist tone and encourages you to do your own research. There are hundreds of QR codes throughout the book that allow you to “fact check” the information he presents.

If this information has been difficult to read, I am sorry; I am just the messenger and only desire to help you find and face the truth if you are ready and willing to hear it. For many of you, it will cause cognitive dissonance at a minimum, or fear, poor health and premature death at the worst. I'm sure most everyone who got the COVID jab did the best they could under the circumstances, but unfortunately, they aren't the first victim of the State and the 0.1% elite who control it.

My interest in this subject is not just humanitarian. [My own mother died suddenly](#) from a brain bleed (a common COVID vaccine injury) in January 2022 during the height of the increase in excess death rates (32% above baseline) among all ages in January and February 2022, which was after the booster shots became available. She was vaxxed and fully boosted. Coincidence?
